

All CRW bins, prior to use, must be fitted with a bin liner by the laboratory users (Figure 1).

Bin liners are available from the following stores:

Bag and seal prior to disposal in the 240L or 120L CRW bins.

Some infectious material that falls into the Risk Group 2 category (AS/NZS 2243.3:2010 Safety in Laboratories Part 3: Microbiological Safety and Containment) may require autoclaving prior to placement into clinicals, &
